Objective

An innovative B.Tech Computer Science student specializing in Data Science, eager to secure an internship to apply academic knowledge and enhance technical and analytical skills in a real-world setting. Passionate with a strong commitment to contributing to projects and driving business success.

Education

Vellore Institute of Technology, Vellore

Bachelor of Technology

Computer Science Engineering with Specialization in Data Science

Graduating - 2026 — **Current CGPA- 9.22**

Chrysalis High

Highest Secondary

2022 — **95.2**

Skills

- Programming Languages: Python, Java, R, C++
- Frameworks/Tools: Pandas, NumPy, Matplotlib, Scikit-Learn, PowerBI, LangChain
- Web Technologies: HTML, CSS, JavaScript, Chrome Extensions
- Cloud and DevOps: AWS (Certified), OCI (Certified), GitHub
- Concepts: Data Structures, Algorithms, OOP

Projects

SafeSpace - AI-powered Women's Safety Platform

Developed a prototype web platform using machine learning to generate safety scores based on dynamic data streams.

•TypeScript •Machine Learning

READefine - Chrome Extension for Dyslexic Readers

Engineered a customizable browser extension improving digital reading accessibility for neurodivergent readers

<https://shorturl.bz/tbE>

•TypeScript •Chrome APIs

EDA- Data Science

Conducted EDA on datasets like twitter sentiments, water potability and customer churn prediction

•XGBoost •Random Forests •Regression •Decision Trees •Computer Vision

LangChain-powered Custom Chatbot

Scraped domain-specific data and developed a conversational assistant capable of responses

•BeautifulSoup •LangChain

Automated Invoice Extraction Tool

Built an OCR and Regex pipeline in UiPath to process invoices and generate structured Excel reports

Achievements

AWS Certified Cloud Practitioner (Score- 914/1000)

AWS Certified Solutions Architect

Oracle Certified on OCI AI Foundations (Score- 100/100)

Received LOR as Business Analyst from Finlatics

CS50 Harvard Course Certification on Introduction to AI with Python
