Objective

An enthusiastic final-year B.Tech student specializing in Data Science, eager to secure an internship to apply academic knowledge and enhance technical and analytical skills in a real-world setting. Passionate about data analysis, machine learning, and programming, with a strong commitment to contributing to innovative projects and driving business success.

Education

Vellore Institute of Technology, Vellore

Bachelor of Technology

Computer Science Engineering with Specialization in Data Science

Graduating - 2026 — **Current CGPA- 9.22**

Chrysalis High

Highest Secondary

2022 — **95.2**

Skills

- Programming Languages: Python, Java, R, C, C++
- Data Science Tools: Pandas, NumPy, Matplotlib, other related libraries and PowerBI
- Machine Learning
- Web Technologies: HTML, CSS, JavaScript
- Version Control: GitHub

Projects

Project SafeSpace

AI-powered safety website for women that analyzes various parameters and provides a safety score in real-time

READefine

A fully customizable chrome extension to support dyslexic and neurodivergent readers to make digital reading more accessible: <https://shorturl.bz/tbE>

Simple Chatbot Creation

Created custom dataset using web scraping, built LangChain-powered chatbot

Invoice Processing Bot

Created a bot using UiPath Studio, that'll auto-process invoices and save the data to an excel sheet, using OCR and regex

My Portfolio Website

Coded my own portfolio to showcase all of my work, skills and projects

Sentiment Analysis (NLP)

Built sentiment prediction model on twitter data using TensorFlow and Keras

Water Potability Prediction

Predict water quality using a machine learning model called XGBoost

Achievements & Awards

Oracle Certified on OCI AI Foundations (Score- 100/100)

AWS Certified Cloud Practitioner (Score- 914/1000)

AWS Certified Solutions Architect

Received LOR as Business Analyst from Finlatics

CS50 Harvard Course Certification on Introduction to AI with Python

Machine Learning Certification from Udemy
